

Sirs, Since when do you dictate what I can and cannot listen to on the radio? This service is bought and paid for by me, an american citizen. When I travel I know I am getting the best coverage of traffic and weather that "MY" money can buy. Don't you people have better things to do than this? Why don't you take the money you are spending on this and go purchase supplies for our men and women overseas trying to free Iraq so they can be free like us to listen to whatever they want to.

Thank you,
Steve Sallee
